

Conflict Minerals Statement

Dear Valued Customer,

In August 2012, the United States Securities and Exchange Commission (the "SEC") issued final rules imposing new reporting requirements on companies who manufacture, or contract to manufacture, products that use Conflict Minerals, which are defined as: tantalum, tin, tungsten and gold.

This letter is to certify that to the very best of our knowledge, the materials stocked and supplied by Metalex Products Limited are manufactured without using the Conflict Minerals as listed above.

We trust that this letter provides the necessary assurance that Metalex Products Limited fully recognises and is actively engaged in satisfying its obligations.

If you would like to discuss any aspect of this letter further, please do not hesitate to contact the undersigned.

Yours sincerely

Adam Rogers
General Manager

Issue: 11 March 2022
