

REACH Compliance Statement

Dear Valued Customer,

The European and UK regulations concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (EU REACH & UK REACH) requires substances on their own, in preparations or substances intentionally released from articles, and that are manufactured or imported into the EU or the UK in quantities above 1 tonne per year per manufacturer/importer, to be registered.

Metalex Products Ltd does not manufacture and/or import substances on their own or in preparations. **We do stock and process: Aluminium Extrusions / Plates, Brass, Stainless Steels and various grades of Cast Iron and Steel bars**, which are considered articles. These articles have no intended or foreseeable release, as outlined in the European Chemical Agency's and the UK REACH's *'Guidance on requirements for substances in articles'* and, therefore, we have no registration obligation under both EU REACH and UK REACH.

We trust that this letter provides the necessary assurance the Metalex Products Limited fully recognises and is actively engaged in satisfying its REACH obligations. If you would like to discuss any aspect of this letter further, please do not hesitate to contact the undersigned.

Best regards

Adam Rogers
General Manager
